FORWARD

It is with great pleasure that we present **Volume 1, Issue 2 (2025)** of the *Journal of Institutional Research, Big Data Analytics and Innovation (JIRBDAI)*.

This issue reflects the journal's commitment to providing a multidisciplinary platform for the dissemination of scholarly research, innovative ideas, and evidence-based solutions to contemporary challenges. The issue brings together **45 scholarly contributions** spanning a broad range of disciplines, including computing and information technology, artificial intelligence and machine learning, education, mathematical sciences, health and medical sciences, environmental studies, petroleum and geological sciences, management, entrepreneurship, and social sciences.

The contributions in this issue demonstrate the growing intersection between technology, data, innovation, and societal development. Of particular interest are studies addressing **artificial intelligence, deep learning, e-learning, big data analytics, cybersecurity, machine learning applications, mathematical modelling, educational technology, healthcare, environmental assessment, and innovation and entrepreneurship**. Collectively, these studies provide insights that are relevant to researchers, academics, practitioners, policymakers, and other stakeholders.

JIRBDAI remains committed to encouraging interdisciplinary scholarship and creating opportunities for researchers to share findings that can contribute meaningfully to knowledge advancement and sustainable development. We are particularly pleased with the diversity of contributions represented in this issue and believe that the articles will stimulate further research, scholarly debate, and practical applications across the various fields covered.

We sincerely appreciate the contributions of all authors, reviewers, members of the Editorial Board, and other stakeholders whose efforts have made the publication of this issue possible. The rigorous peer-review and editorial processes remain central to our commitment to maintaining the quality and integrity of the journal.

As the journal continues to grow under the stewardship of the **Nigerian Society of Data Analysts and Business Intelligence Experts (NSDABIE)**, we welcome researchers and practitioners from Nigeria and beyond to contribute to subsequent issues of JIRBDAI.

We invite our readers to engage with the research presented in this issue, share the findings with relevant communities, and continue to support the journal in its pursuit of scholarly excellence and research impact.
